## VORTRAG MIT KLEINEM EMPFANG

### "Curses in the Gendered Cosmos of Late Warring States"

**Prof. Constance Cook** (Lehigh University)

**MO, 1. JUN, 18 UHR**

Division of supernatural cosmic energy into male and female influences occurred around the same time that conservative philosophers attempted to promote an idealized traditional family hierarchy and male/female social roles in the face of an increasingly chaotic and war torn world. This is reflected in a recently discovered 300 BCE divination manual. The history and role in this manual of male and female supernatural agencies will be examined in this talk.
