VORTRAG MIT KLEINEM EMPFANG

"The Global Dimension of the Young China Movement"

Jin Yan (Universität Göttingen)

Mo, 07. Nov, 18 UHR

The beginning of the 20th century witnessed youth movements developing in many parts of the world. The Young China Movement was certainly not alone on the planet. The lecture will explore the global dimension of the movement, including the politicization and popularization of the concept Youth and how the Chinese intellectuals searched globally, from not only the West but also the non-Western world, for inspirations to build their Young China.
